Billing & Important Notes

Billing is charged immediately upon upgrading. Annual subscriptions are billed once per year.

- Cancellations take effect at the end of the current billing period — benefits remain active until then.
 - Canceled subscriptions that are still within the paid period can be reactivated ("Resume Subscription").
 - Upgrading from Pro to Premier is available at any time; the price difference is prorated for the current period.
 - Stripe processes all payments securely. No card data is stored on SpeakerSphere servers.
 - Admin-assigned SDS and SDS Faculty badges may boost search ranking within a tier (admin-controlled, not a purchasable add-on).
 - Topic display limits apply to the public profile view; all topics remain stored and searchable in the speaker dashboard.
 - Storage is per-speaker; uploaded files count toward the total regardless of file type (PDF, image, etc.).
 - Video links are external URLs (YouTube, Vimeo, etc.) — they do not count toward storage.
 - Analytics data is only collected and stored for Premier speakers; Basic and Pro speakers see a locked analytics tab.
